Subject: Site timelines?
Date: Friday, February 07, 2014 12:31:29 PM

Y'all –

If you recall, at our initial tiger teams meetings, y'all agreed to make timelines of your sites of upcoming communication opportunities (e.g., ROD coming out or public meeting or other major announcement or occurrence).

Now might be an excellent time to have that reference to share with other team members. Is there any chance you might have such to share with the teams before our meetings next week?
